WHITE PAPER

COWBOY SNAKE

THE FIRST TVT GAME PLATFORM ON BLOCKCHAIN

v2.0

INFORMATION
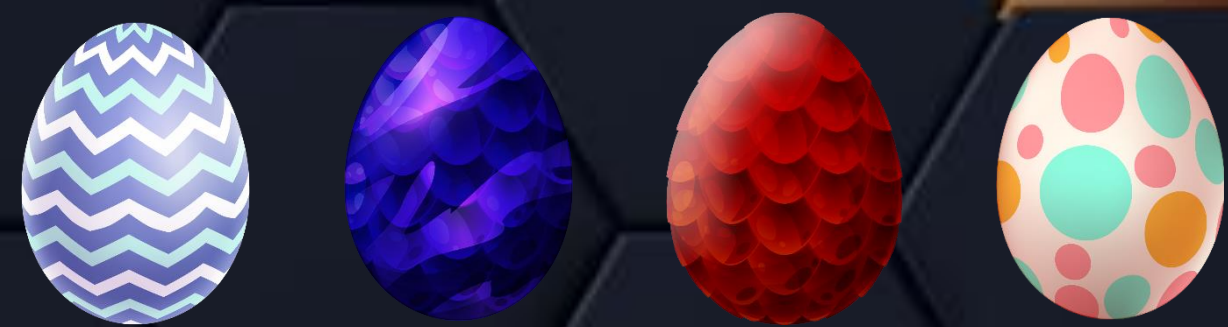

INTRODUCTION

COWBOY SNAKE is a game inspired by Snake game, that each player will control their own snake to eat food that appears around and fight with snakes controlled by other players around the world. Players only need to control their snake with the pointer and a click each time they want to speed up. Simple operation that anyone can play.

In addition to highly entertaining and training acumen for players, **COWBOY SNAKE** is also a game for you to collect for *Snake Rinium (RIM)*, a type of Snake Gem and the NFT items. The NFT items that players hunt are fully owned by them. This is considered a reward for your contributions to the ecosystem. This model is called "Play To Earn".

With the situation of the Covid pandemic and the global economic crisis, millions of businesses have to go bankrupt and cause tens of millions of workers to lose their jobs. COWBOY SNAKE is a new monetization solution that is easy to use and intuitive.

HOW TO PLAY

How do players start?

You need to own an NFT snake to be able to start participating in the game. On MarketPlace, there are 4 types of NFT snakes for you to choose from. After having the NFT snake, you need more Snake Rinium (RIM) to be able to participate in the mortal combat room. Snake Rinium (RIM) may be earned via gaming or purchased through exchanges such as PancakeSwap...

* The indexes above are an example. The different snakes will have different indexes

Snake's life

You must feed the snake to maintain its life, if it is over time but the snake is not eaten, it will be **FROZEN**. To recover a Snake, you need an amount of COWS equivalent to 200BUSD *(this recovery fee may change from time to time depending on the value of COWS in the market) or you have to feed the snake an amount of RIM equivalent to the number of hours that it is frozen (0.1 BUSD/hour, counting from when the Snake is frozen).*

There are 2 ways to feed snakes
1. Join the game and feed the snakes 300,000 Points every turn, snakes will recover 100% of the time after being fed enough.
2. Feed snakes with RIM (0.1BUSD/hour)

HEALTHY

Snakes showing "Healthy" status can join the battle room at any time.

FROZEN

Snakes showing "Frozen" status will not be able to join the battle room.

KINDS OF NFT SNAKE EGGS

Snake Eggs in the game are encrypted as NFT (Non-fungible token) on the platform of Binance Smart Chain (BSC) with a maximum total of only 37,500,000. Eggs are laid when the snake reaches a certain number of points in the playroom of game. Any type of snake will lay eggs of that type, so Snake eggs are divided into 4 types: Naga, Hydra, Lord, Shenron.

Distribution rate

Each kind of egg will be distributed with stable quantity:

■ Naga	20,000,000
■ Hydra	10,000,000
■ Lord	5,000,000
■ Shenron	2,500,000

PIECES OF NFT SNAKE EGG

There are a total of 40 egg piece samples. You must collect 5 to 20 identical pieces to make an NFT Egg

(The number of egg pieces shown above is only for reference purposes. Exact figures will be updated after the Testnet phase is completed)

Amount of egg pieces	Success rate	Note
5	15%	1 piece of egg will be burned if it fails
10	35%	2 piece of egg will be burned if it fails
15	60%	3 piece of egg will be burned if it fails
20	90%	4 piece of egg will be burned if it fails

HOW DO PLAYERS MAKE MONEY?

PvE

Collect the NFT Egg pieces

You need to kill the other snakes in the challenge room and eat the required amount of food. Then the Shenron Dragon will appear, you need to kill Shenron to get the chest. Then your snake nest will appear, you need to move to your snake nest to save the achievements to the archive on your account.

Rewards:

The chest you get from the Shenron Dragon will contain random rewards including:
❑ Snake Rinium (RIM)
❑ NFT Egg pieces
❑ NFT Eggs
❑ NFT Hats

HOW DO PLAYERS MAKE MONEY?

PvP

The players will battle with each other for the top position on the weekly ranking board. SHENRON dragons will also appear on a regular basis in the playroom. You will compete against other players to be the first to kill the Shenron and take the chest.

The snake nest will appear when you complete your quests. At this time, you need to move to the snake nest to store the achievements before being killed and taken by your opponent (we will update the details of the missions when the Beta test is launched).
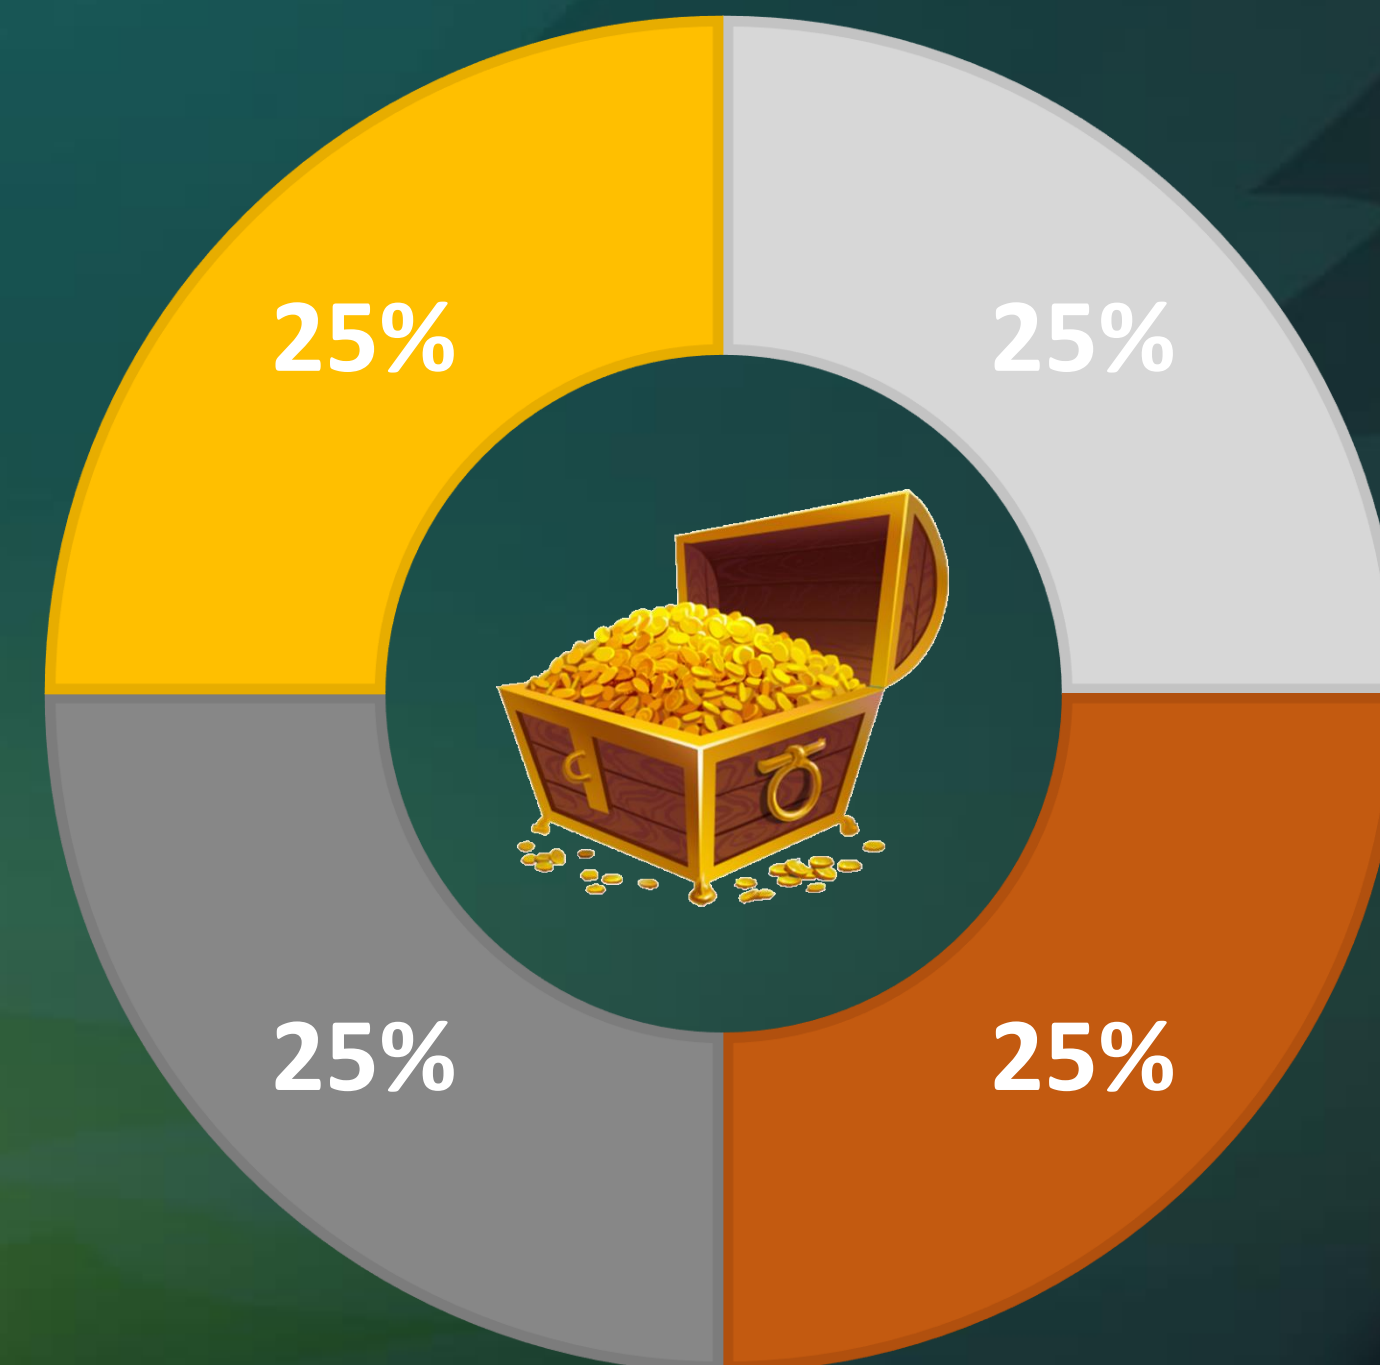

Ranking board competition

Compete for the top positions on the weekly leaderboards to receive rewards from the in-game **TREASURES**. The size of the treasures are based on the number of players. The more players, the bigger the treasures

TOKEN INFORMATION

Snake Rinium Token (RIM) is a token BEP-20 used for rewards for Cowboy Snake players. RIM holders can get weekly reward from the treasure exploited in the game.

What is RIM used for?

• **Break the Egg:** The fee for breaking eggs is 5 BUSD per time.

• **Egg Combination:** The Egg combination fee is 1 BUSD per time.

• **Pay to join the game room:** Each turn, snakes need a small amount of RIM to participate in the mortal combat room.

• **Food for NFT snakes:** If it is over time but the snake with a turn of 300,000 points has not been fed, it will automatically consume an amount of RIM equivalent to 0.1 BUSD/hour. This consumption will be displayed on the player's account

HOW TO OWN RIM?

There are many ways for you to own RIM

1. Complete in-game quests to get the chests and you'll have a chance to get RIM in these chests

2. Compete for positions on the ranking board every week to share the treasure

3. Hold RIM on Binance Smart Chain and get reward every week according to holding rate

4. Alternatively, you can buy RIM on listed exchanges

5. Share the game to many people and get RIM from Affiliate rewards

MINING RATE

The RIM mined on the gaming platform is multiplied by 0.9. The platform will automatically collect 0.1 and allocate as follows:

- *50% Burn off*
- *25% Rewards for COWS Holders bases on the holding rate on Binance Smart Chain*
- *25% Value coordination fund*

*The quantity of RIM mined **will be decreased 30%** to increase the difficulty and decrease the rate of inflation in the market*
