ROAD MAP

INTRODUCTION

Inspired by the classic game "Snake", COWBOY SNAKE players will control their own snake to consume food in the surroundings and fight with snakes controlled by other players around the world. The game was designed for all levels of players. Players will control their snakes with the pointer and a click each time they wish to speed up.

In addition to its highly entertaining nature and training acumen, COWBOY SNAKE is also a collective game. Players can collect Snake Rinium (\$RIM) - in-game reward and NFT items. This is considered a reward for your contribution to the ecosystem. This model is called "Play To Earn".

During the Covid pandemic and the global economic crisis, millions of businesses go bankrupt and millions of workers lose their jobs, COWBOY SNAKE is considered as a new simple & effective monetization solution.
